

Andy Green

Executive Vice President
and President, Technical Solutions

Andy Green is executive vice president of Huntington Ingalls Industries and president of HII's Technical Solutions division. Named to this position in 2016, he is responsible for HII's services businesses, which include training systems, logistics support, information technology, fleet maintenance and modernization, unmanned undersea systems, nuclear engineering and fabrication, and oil and gas engineering.

Green previously served as corporate vice president of corporate development, responsible for all of HII's corporate development activities related to shipbuilding and marine technical services, and as vice president, component manufacturing, where he directed the manufacture of major components used in the construction of U.S. Navy aircraft carriers and submarines. He joined HII in 2011 as corporate vice president of investor relations, where he was primarily responsible for the company's relationships and communications with Wall Street research analysts and shareholders.

Prior to joining HII, Green served as vice president of investor relations at Celanese Corp. He also worked as an investment banker and research analyst at Wells Fargo, where he covered the defense and aerospace industry, and as a manufacturing plant engineer and maintenance manager at Eaton Corp.'s Truck Components Division.

Green is a former U.S. Navy nuclear submarine officer. During his naval service, he successfully completed the U.S. Navy's nuclear power program, including prototype training at the S1C reactor, and served as an officer aboard the ballistic missile submarine USS *Tecumseh* (SSBN 628), qualifying submarines, Poseidon C3 strategic weapons systems officer and S5W engineer. During his naval service, he also served as an instructor for junior submarine officers at the Navy's training facility in Charleston, South Carolina.

He holds a bachelor's degree in systems engineering from the United States Naval Academy and an M.B.A. from Duke University.

Huntington Ingalls Industries is America's largest military shipbuilding company and a provider of manufacturing, engineering and management services to the nuclear energy, oil and gas markets. For more than a century, HII's Newport News and Ingalls shipbuilding divisions in Virginia and Mississippi have built more ships in more ship classes than any other U.S. naval shipbuilder. Headquartered in Newport News, Virginia, HII employs nearly 35,000 people operating both domestically and internationally. For more information, please visit www.huntingtoningalls.com.
