

## **HII Scholarship Fund Video – Investing In Their Futures**

### **Angela Stumpo**

The scholarship will benefit me incredibly because going to an out-of-state school, it's a lot more expensive and it's something that I took on to myself so that I could get the best education I could.

### **Darius Price**

It will take a big burden off my family – definitely financially -- going to Virginia State.

### **Julianne Nguyen**

I have a few scholarships that I already have, but this definitely will help me finish paying off my last year at Mississippi Gulf Coast Community College.

### **Caroline Nailer**

It's going to enable me to focus mainly on my education and furthering it, rather than worrying about the financial aspects of college in nursing school.

### **Sean Wells**

I think this scholarship functions as a great investment in my future because it's a big part of my education, obviously paying for that is a trade-off that we all have to make and being able to have some of that already paid for is going to allow me to focus some of my time on other opportunities that may benefit me elsewhere.

### **Kyle Dodson**

Well an early start to education is important just to give the best opportunity to our kids, right?

### **Corey Burns**

This is my future here -- future doctor, nurses, lawyers anything.

### **James Park**

We're very high on early childhood education in our house. We've seen the benefit of it with our oldest and we're hopefully going to see the same with our second one.

### **Shakeil Darrington**

Jordan is going to school this year for the first time. He will be in a pre-k program.

### **Sarah Gorman**

We're a large family -- we have eight children, nine on the way -- and so for us to be able to have this scholarship, it helps us send Peter not only to a pre-k, but an excellent pre-k. He'll be at the same school where his siblings are, which makes him feel more confident and secure, and I know that's going to help him move along quicker as well.
